What can we do for you?

Our purpose for home visitation is to be able to weigh and measure your child. We will be able to see how your child is growing and developing in between doctor's visits. Education will be provided so that you will know what to expect from each stage of your child's development.

What to expect from our program:

- A healthy baby
- Success with parenting
- Being connected to the wonderful world of parenthood
- Knowing what to do in case baby has problems
- Knowing who else in the community can help
- Being proud of your parenting skills
